

Project Management with Git		Semester	3
Course Code	BCS358C	CIE Marks	50
Teaching Hours/Week (L:T:P: S)	0: 0 : 2: 0	SEE Marks	50
Credits	01	Exam Marks	100
Examination type (SEE)	Practical		
<b>Course objectives:</b> <ul style="list-style-type: none"><li>• .To familiar with basic command of Git</li><li>• To create and manage branches</li><li>• To understand how to collaborate and work with Remote Repositories</li><li>• To familiar with virion controlling commands</li></ul>			
Sl.NO	Experiments		
1	<b>Setting Up and Basic Commands</b>  Initialize a new Git repository in a directory. Create a new file and add it to the staging area and commit the changes with an appropriate commit message.		
2	<b>Creating and Managing Branches</b>  Create a new branch named "feature-branch." Switch to the "master" branch. Merge the "feature-branch" into "master."		
3	<b>Creating and Managing Branches</b>  Write the commands to stash your changes, switch branches, and then apply the stashed changes.		
4	<b>Collaboration and Remote Repositories</b>  Clone a remote Git repository to your local machine.		
5	<b>Collaboration and Remote Repositories</b>  Fetch the latest changes from a remote repository and rebase your local branch onto the updated remote branch.		
6	<b>Collaboration and Remote Repositories</b>  Write the command to merge "feature-branch" into "master" while providing a custom commit message for the merge.		
7	<b>Git Tags and Releases</b>  Write the command to create a lightweight Git tag named "v1.0" for a commit in your local repository.		
8	<b>Advanced Git Operations</b>		

	Write the command to cherry-pick a range of commits from "source-branch" to the current branch.
9	<b>Analysing and Changing Git History</b>  Given a commit ID, how would you use Git to view the details of that specific commit, including the author, date, and commit message?
10	<b>Analysing and Changing Git History</b>  Write the command to list all commits made by the author "JohnDoe" between "2023-01-01" and "2023-12-31."
11	<b>Analysing and Changing Git History</b>  Write the command to display the last five commits in the repository's history.
12	<b>Analysing and Changing Git History</b>  Write the command to undo the changes introduced by the commit with the ID "abc123".
<b>Course outcomes (Course Skill Set):</b> At the end of the course the student will be able to: <ul style="list-style-type: none"> <li>• Use the basics commands related to git repository</li> <li>• Create and manage the branches</li> <li>• Apply commands related to Collaboration and Remote Repositories</li> <li>• Use the commands related to Git Tags, Releases and advanced git operations</li> <li>• Analyse and change the git history</li> </ul>	

**Assessment Details (both CIE and SEE)**

The weightage of Continuous Internal Evaluation (CIE) is 50% and for Semester End Exam (SEE) is 50%. The minimum passing mark for the CIE is 40% of the maximum marks (20 marks out of 50) and for the SEE minimum passing mark is 35% of the maximum marks (18 out of 50 marks). A student shall be deemed to have satisfied the academic requirements and earned the credits allotted to each subject/course if the student secures a minimum of 40% (40 marks out of 100) in the sum total of the CIE (Continuous Internal Evaluation) and SEE (Semester End Examination) taken together

**Continuous Internal Evaluation (CIE):**

CIE marks for the practical course are **50 Marks**.

The split-up of CIE marks for record/ journal and test are in the ratio **60:40**.

- Each experiment is to be evaluated for conduction with an observation sheet and record write-up. Rubrics for the evaluation of the journal/write-up for hardware/software experiments are designed by the faculty who is handling the laboratory session and are made known to students at the beginning of the practical session.
- Record should contain all the specified experiments in the syllabus and each experiment write-up will be evaluated for 10 marks.
- Total marks scored by the students are scaled down to **30 marks** (60% of maximum marks).
- Weightage to be given for neatness and submission of record/write-up on time.
- Department shall conduct a test of 100 marks after the completion of all the experiments listed in the syllabus.
- In a test, test write-up, conduction of experiment, acceptable result, and procedural knowledge will carry a weightage of 60% and the rest 40% for viva-voce.
- The suitable rubrics can be designed to evaluate each student's performance and learning ability.
- The marks scored shall be scaled down to **20 marks** (40% of the maximum marks).

The Sum of scaled-down marks scored in the report write-up/journal and marks of a test is the total CIE marks scored by the student.

**Semester End Evaluation (SEE):**

- SEE marks for the practical course are 50 Marks.
- SEE shall be conducted jointly by the two examiners of the same institute, examiners are appointed by the Head of the Institute.
- The examination schedule and names of examiners are informed to the university before the conduction of the examination. These practical examinations are to be conducted between the schedule mentioned in the academic calendar of the University.

- All laboratory experiments are to be included for practical examination.
- (Rubrics) Breakup of marks and the instructions printed on the cover page of the answer script to be strictly adhered to by the examiners. **OR** based on the course requirement evaluation rubrics shall be decided jointly by examiners.
- Students can pick one question (experiment) from the questions lot prepared by the examiners jointly.
- Evaluation of test write-up/ conduction procedure and result/viva will be conducted jointly by examiners.
- General rubrics suggested for SEE are mentioned here, writeup-20%, Conduction procedure and result in -60%, Viva-voce 20% of maximum marks. SEE for practical shall be evaluated for 100 marks and scored marks shall be scaled down to 50 marks (however, based on course type, rubrics shall be decided by the examiners)
- Change of experiment is allowed only once and 15% of Marks allotted to the procedure part are to be made zero.  
The minimum duration of SEE is 02 hours
